

ROOF REPAIR

Reinforcement Fleece

PRODUCT DATA SHEET

Product description

Polyester reinforcement fleece for roof repairs. Use this reinforcement fleece in combination with Roof Repair Strong. This strong and elastic reinforcement fleece has good absorbency and makes it easier to build up layers. This helps to absorb tensions between building materials.

Application

For use on bitumen substrates and the most commonly used building materials such as concrete, stone, wood, steel, aluminium, cement render and polyester.

Advantages

- ▶ Additional reinforcement when repairing blisters, cracks and tears
- ▶ Absorbs tensions between the materials to ensure the intended waterproofing

How much product do I need?

1 roll is 10 cm x 10 m

ROOF REPAIR

Reinforcement Fleece

INSTRUCTIONS

What do I need?

How do I use the product?

- Use the reinforcement fleece in combination with **ROOF REPAIR STRONG** to cover tears, gaps and seams and to build up layers easily.
- Apply **ROOF REPAIR STRONG** to the surface to be repaired.
- Install the reinforcement fleece immediately after applying the first layer of **ROOF REPAIR STRONG**, press firmly and immediately cover with a second layer of **ROOF REPAIR STRONG**.
