

# GARDEN CLEAN SCRUB FREE

Universal cleaning product for all surfaces

PRODUCT DATA SHEET

## Product description

A universal cleaning product based on enzyme technology for intensive cleaning of all types of outdoor surfaces without scrubbing. The combination of specific enzymes ensures that all dirt is broken down. Once applied, the product does its job. There is no need to scrub or use a pressure washer. You will see results in just a few days. Maximum results are achieved after a few weeks, depending on the amount and type of dirt. It protects against new dirt as well. **GARDEN CLEAN SCRUB FREE** is also the ideal product to prepare any substrate for further treatment, such as painting or protecting with a waterproof coating.

## Application

For use on all outdoor surfaces: Flat and pitched roofs: slates, tiles, shingles, corrugated sheets, thatch, bitumen roofing.

- Façades: painted or unpainted brick, concrete, plaster, render, wood, etc.
- Terraces and driveways: paving stones, pavers, tiles, tropical hardwood, etc.
- Ornaments and garden statues: terracotta, concrete, plastic, natural stone, bluestone, etc.
- Bluestone: sills, thresholds, tombstones, door frames, etc.
- Garden furniture: teak, plastic, metal, wood, etc.
- Orangeries, greenhouses and conservatories: wood, aluminium, glass, etc.

## Advantages

- › Very effective
- › Self-cleaning, no scrubbing required
- › Removes all air pollution
- › Environmentally friendly and safe to use

## How much product do I need?

Use 1 litre for 5 to 10 m<sup>2</sup>, depending on the amount of dirt.

See also the calculator on our website [www.aquaplan.com](http://www.aquaplan.com).

## Handy tips?

- Store in a cool (max. 20°C) and frost-free place.
- Do not apply at high temperatures or in direct sunlight. Do not apply if the ambient or substrate temperature is below +5°C.
- A slight reddish-brown discolouration may occur during application; this disappears after some time.
- Care should be taken when the product is applied or splashed on certain types of powder coatings. Test it on an inconspicuous area first.
- Ingredients: 5-15% cationic surfactants. <5% anionic surfactants, non-ionic surfactants, amphoteric surfactants; Enzymes.

Material	Colour	Contents	Coverage	Drying time	Coats	Overpaintable
Enzymes	Transparent	0.75 l / 5 l / 10 l	About 7.5 m <sup>2</sup> /L depending on the amount of dirt	About 24 hours	1	Yes

Universal cleaning product for all surfaces

INSTRUCTIONS

## What do I need?

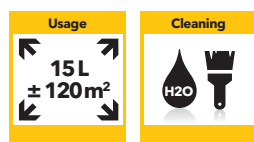

## How do I prepare the surface?

- For faster results, remove any built-up dirt by hand.

## How do I use the product?

- Apply **GARDEN CLEAN SCRUB FREE** undiluted with a brush or garden sprayer, preferably on a dry or slightly damp substrate at a rate of 5 to 10 m<sup>2</sup>/litre. The amount of product required depends on the amount of dirt on the substrate. Cover if rain is expected within 24 hours.
- No further action is required. Leave **GARDEN CLEAN SCRUB FREE** to soak in; it is self-cleaning.
- If there is little dirt or for prevention, dilute 1 litre of **GARDEN CLEAN SCRUB FREE** with 2 or 3 litres of water.
- Once the dirt has been removed, the substrate can be treated with paint or a waterproof coating if required.
